

## Message from Director NIT Srinagar, India

NIT Srinagar ([www.nitsri.net](http://www.nitsri.net)) and IIT Kharagpur ([www.iitkgp.ac.in](http://www.iitkgp.ac.in)) is jointly organizing 5<sup>th</sup> Edition of "International Conference on Nanotechnology for Better Living NBL -2019" from 7-11 April, 2019 at NIT Srinagar, in association with various prestigious institutions of the country. We cordially invite all the participants across the globe to attend this mega academic event.

**NBL-2019 Conference** covers wide range of topics in all areas of science, engineering and medicine with an aim to gather well known National & International scientists to share new knowledge, current breakthrough and discuss practical challenges in this interdisciplinary field. The goal is to share and present state-of-the-art research, recent achievements and global trends in nanoscience and nanotechnology, also to promote cross-disciplinary interactions that can spur the development of this exciting research field. Special emphasis will be placed on energy materials and applications, nano-biotechnology, health and environmental safety of nanomaterials and specific techniques to develop nano-devices.

Conference tutorials have been arranged for the participants and students registered for NBL-19. The conference is designed to encourage the exchange of ideas across a broad range of disciplines. The conference will witness important presentations by the extensive range of eloquent speakers, policy makers and scientific leaders around the world who will assemble in Srinagar (Kashmir) with a common objective of making this world a better place by providing the solution to some of the problems.

**The Conference host, NIT Srinagar is one of the leading institutions in North of the country, located at the bank of famous Dal Lake in Srinagar well known to the world as "Paradise" on the earth. We look forward to welcome many participants in ICNBL-2019.**

**Prof. Rakesh Sehgal**  
**Director, NIT Srinagar, India**
